Multi-member limited liability company	2
Branch	1
Single-member limited liability company	1
Private enterprise	1
TOTAL	12

Notes on This Report

- A role is counted once for each position a person holds at an enterprise, so one enterprise may contribute more than one role to the totals.
- Where the register holds the subject under more than one identification document, each document is searched separately and reported in its own section; an enterprise may therefore appear under more than one record.

- A role marked Expired means the appointment is no longer current in the register. It is retained because the report covers the last three years.
- Capital share is reported only for roles that carry a shareholding — founders, members and owners. A dash means the register holds no share for that role.
- Branches and other dependent units carry the parent enterprise code with a unit suffix.
